

Carroll Little, MBA, PMP

Carroll.Little@gmail.com | 410.419.4341 | 1621 Lindley Drive, Hanover, MD 21076

Summary:

Enterprise transformation and PMO leader with 20+ years of experience delivering complex business and technology initiatives for Fortune 500 organizations. Known for bringing clarity to complex initiatives by establishing governance, aligning cross-functional stakeholders, strengthening executive visibility, and bringing execution discipline to high-profile transformation programs. Combines strategic thinking with analytical problem-solving to turn ambiguity into structured, measurable progress. Trusted for building repeatable processes, improving execution consistency, and delivering sustainable business outcomes across enterprise programs, regulatory initiatives, and operational transformations.

IT Program Management	Project Management	Leadership Development	Change Management
PMO Governance	Program Governance	Enterprise Transformation	Risk Management
ERP Transformation	Strategy Development	Process Improvement	IT Governance
NERC CIP Compliance	Stakeholder Engagement	QA Management	Vendor Management

Experience:

Exelon Corporation, Baltimore, MD

2012 – 2026

IT Program Monitor & Controls Manager (2024 - May 2026)

Enterprise Financial Transformation

Lead program governance and controls for a multi-year enterprise financial system transformation replacing legacy platforms with Oracle-based solutions, improving execution consistency by establishing and enforcing program standards and increasing deliverable and risk transparency.

- Drove executive visibility by delivering KPI dashboards and program health metrics, enabling real-time decision making and effective decision support reporting across a multi-year transformation program.
- Oversaw risk, issue, and change management (RIDAC), for timely resolution and escalation across leadership.
- Improved program execution and audit preparation through risk management and program deliverable management processes.

Data Conversion Manager (2020 - 2024)

Oracle CC&B Transformation

Directed large-scale data migration for 10.5M customers, consolidating multiple legacy systems into a unified Oracle CC&B (Customer Care & Billing) platform. Led 50+ global team, managing delivery, budget, and vendor relationships. Developed and implemented enterprise data migration strategies including cleansing, normalization, and reconciliation. Partnered with internal audit and compliance teams to ensure regulatory alignment and audit readiness, reducing compliance risk.

- Directed a major Oracle CC&B conversion impacting 10.5M customers across two utilities, completing full conversion activities in 76 hours, within a 100-hour target, and minimizing system downtime.
- Led migration of 22TB of data from two legacy CIMS environments into a single Oracle Cloud CC&B instance, converting 13 months of historic transactions and 24 months of service orders.
- Delivered 99.9% accuracy and supported 35MM bills generated and verified during cutover and stabilization.
- Managed data conversion of Oracle CC&B, MDM, and inflight activities end-to-end to ensure business continuity, data integrity, and operational readiness.

NERC CIP Compliance Lead (2014 - 2020)

Work & Asset Management

Directed regulatory compliance across multiple utilities and business units, supporting four distinct North American Electric Reliability Corporation Critical Infrastructure Protection (NERC CIP) standards. Designed compliance frameworks and governance models adopted across the organizations, standardizing processes across multiple distinct utilities, reducing audit risk. Training included understanding of System Access Controls such as Role-based access control (RBAC) and Segregation of Duties (SoD).

- Drove compliance program standards across 4,600+ critical assets spanning 15 business units.
- Generated and presented formal reports delivering zero negative findings across multiple regulatory audits, demonstrating effective compliance management.
- Guided implementation of CIP-007 R2 Security Patch Management, CIP-010 R1 Configuration Change Management, CIP-010 R2 Configuration Monitoring, and CIP-010 R3 Vulnerability Assessments.
- Partnered with security and Identity & Access Management (IAM) teams to support access certification and audit readiness.

Project Manager (2012 - 2014)**Exelon Business Services - Retail**

Managed capital and operational projects with full lifecycle ownership (scope, schedule, budget). Developed business cases to proposals and provided financial oversight to approved initiatives within my portfolio. Partnered with key stakeholders to prioritize schedules, risks, and quality metrics to effectively manage budget, resources, and scope.

- Delivered two parallel interdependent CRM application and database upgrade projects on \$1.5 million budget and on schedule.

Constellation Energy, Baltimore, MD**2006 – 2012****Quality Assurance Program Manager (2011 - 2012)****Constellation PMO**

Established a Quality Assurance Center of Excellence within the Project Management Organization (PMO). Standardized testing and governance processes across enterprise initiatives. Instituted strategic objectives and enforced governance and accountability for QA and testing related project activities.

- Built and led QA organization examining **25+ concurrent projects** within 7 months of organization's inception.

Application Production Support Manager and Lead Analyst (2006 - 2011)**Constellation Retail**

Led production support for CRM and Billing systems across six regions consisting of Sales, Customer Care, Contract Administration, Transaction Management, Pricing, Billing, and Product Configuration.

- Orchestrated upgrade of 2 parallel applications & databases in 60% of targeted timeframe
- Streamlined production support cycle improving quality control
- Improved release quality and reduced defect rates through process optimization

Vis.Align, King of Prussia, PA**2004 – 2006****Senior Consultant**

Managed client projects on Microsoft Dynamics CRM implementations. Represented firm on the Microsoft CRM Partners Advisory Council – an international committee of Microsoft partners providing Microsoft direct insight on client experiences, application functions, and established protocols and methodologies to implement Microsoft Dynamics to international, mid-market and enterprise level projects.
